

ABOUT PROJECT

The organizations aim to increase their capacity to motivate adult learners to use interactive and multimedia resources to make language learning more engaging and enjoyable. Also, they want adult learners to take control of their own learning and become more independent learners.

Tangible Results:

1. A Toolkit for Adult Learners
2. A Guide for Autonomous Learning

DIGITALIZED LANGUAGE
LEARNING FOR ADULTS

2023-1-NL01-KA210-ADU000152245

WHY THIS PROJECT?

1-Increasing Capacity

2-More Effective Language Teaching

3-International Partnerthip

4- More Digitalization

5- Sustainable Development

ACTIVITY 1

The first activity has provided a thorough grasp of language learning, how language is learned and the various aspects that affect the acquisition

- *Basics of Language Acquisiton*
- *SLA Theories*
- *Learner Autonomy*
- *Web2 Tools*

ACTIVITY 2

The goal is to review the project outputs which invlude personalized and digitalized language learning tools. These tools will raise learner interest by giving them the freedom to practice at their own speed, concentrate on what interests them, and connect with multimedia and interactive information

Another goal is to acquire a lifelong learning prespective that can be driven by a desire to advance their inner forces or follow their own interests

TESTIMONIALS

This training completely transformed my approach to teaching. The digital tools and platforms we learned about have made my classes more interactive and engaging - Naime YILDIRIM

"I was initially hesitant about integrating technology into my language classes, but this training showed me how effective digital tools can be- Adem DEMIR
