DIGITALIZED LANGUAGE LEARNING FOR ADULTS- 2023

NL01-KA210-ADU-000152245

## ABOUT THE PROJECT

The project has been funded by Nationaal Agentschap Erasmus+ Onderwijs & Training in 2023. The consortium includes 3 organizations: STOC (Netherlands, ASSOCIAZIONE "YOUTH AND DEVELOPMENT" ( Italy), and SIBITOG (Turkey). The project has been designed in the format of Erasmus KA210 ADU.

## PROJECT GOALS

- to improve the learners' language proficiency by providing opportunities for them to practice all four language skills in a digital format,
- to increase engagement and motivation among adult learners to use interactive and multimedia resources to make language learning more engaging and enjoyable,
- to provide learners with more flexibility and accessibility in their language learning journey,
- to encourage learners to take control of their own learning

## PROJECT RESULTS

### Tangible Results:

1. A Toolkit for Adult Learners
2. A Guide for Autonomous Learning

### Intangible Results:

- Increased engagement and motivation
- The project activities will provide staff and learners with progress tracking tools that allow them to monitor their learning progress and identify areas that need improvement.
- The participants will learn how to guide cost-effective learning activities compared to traditional classroom-based language learning.

# ACTIVITY 2

## COLLECT THE MINDS UP

DECEMBER  
2023

### Look What We Learned

#### THEME: LANGUAGE ACQUISITION

The activity has provided a grasp of language learning, how language is learned and the various aspects that affect the acquisition thanks to theoretical frameworks in language instruction. Participants now can use this information to create efficient teaching methods that support language development.

#### DIGITALIZATION

The trainers enhanced their ability to instruct by integrating digital tools and embracing individual differences. They will also utilize this information to create and deliver classes that are suitable for their learners' requirements

#### COMMUNICATIVE APPROACH

Participants have understood the principles and strategies of the Communicative Approach, a widely recognized language learning approach, and learn how to incorporate it into their teaching practices effectively.

#### MICROTEACHING

Through organizing microteaching activities for different levels of learners, participants will gain practical experience in lesson planning, classroom management, and delivering effective language instruction.

### What's New

#### WEB 2 TOOLS

Slido	YouGlish
Kahoot	Talkio AI
Memrise	Talkpal.ai
Lingvist	Quazel
Drops	
Beelinguapp	
FluentU	

### Curriculum Design

Participants have gained insights into curriculum design principles, types of syllabi, and course design, allowing them to develop sample syllabi and course designs tailored to different levels of language proficiency.

### Upcoming

- Toolkit for Adult Learners: March 2024
- Guide for Autonomous Learning: April 2024
- Activity 3: April 2024
